President's corner Were having a lil wet weather at this time of the year. And I know its frustrating to show up at the field alone hoping some one will show up with you , for safety reasons you cant fly alone .call ahead and have a friend come with you to avoid a wasted trip. Remember to cycle your batteries, experience taught me this. Mr. Al Montalbano will be taking over the web page he has made an exceptional web page fore guests to come look at trivalley r/c modelers on the net and a very informative news letter that can be e-mailed to our members please check it out. Mr. Dangourian will continue to do direct mailing at the present time to non e mail recipients, please support the web page by sending news worthy information to Al .., we have had some new members join make sure were doing all we can do make them feel welcome,.. Tri valley modelers has entered into the intro pilot program so new comers can fly and not be an A.M.A member as long as they fly with Jim Oberest, Jay Dangourian or Larry Schlagel these people have been given new AMA cards that allows this and forms to fill out. We had a great turn out at our last meeting thanks for your support to tri valley r/c modelers.
