Newsletter Editor: Jay Dangourian

Next meeting Wednesday July 5th at 7:00 pm

President's corner just a lil windy lately has caused some havoc on some of our smaller planes with light wing loadings.. With 14.7lbs at sea level of atmospheric pressure and a small motor spells disaster . Be careful on your take offs and landings .larger aircraft do not seem to have as much problems but caution must always be applied .remember to fly safe and have fun see ya at the field Larry

Minutes of the Tri-Valley Aero modelers

President opened the meeting at 7pm.
New member. Ken Clark was introduced By President Larry Schlagel,

Minutes were read By the acting secretary Mr Jim Bierbauer for the may meeting and approved.

Mr. Dangourian the News letter editor Made note that this was the only meeting this year on a Thursday due to scheduling of the meeting hall, and all other meetings will be held on Wednesdays for the remainder of our contract with the city ..

President Larry Schlagel made a plea for a volunteer for a field marshal to also act as a safety officer in the absence of our safety officer at the field , as of now we do need this post filled, No response from the club members

Old business the president advised that after a discussion with Mr. Sinez the property owner that there is no further expansion at our currant site at this time, we can however maintain our improvements as necessary, the major portion of cattle has been removed , so this should help with keeping a clean run way .

New Business A fun fly was proposed and member Devin our electric flyer volunteered to put together an event .a discussion was held to possibly have a BBG at the American Legion hall after this event . It was also discussed that we need to reinstate our proficiency certificates as nothing has been done for a period of time and that all members be tested and be rated on all levels . Flight Instructors Bob Allington on high wing and trainers . Jay Dangourian sport flyers and 3d type aircraft. Jim Oberest on sport and high wing aircraft Inc gliders and electrics Larry Schlagel on sport ,3D and acrobatic aircraft, will be available to sign off on these certificates, Please try to have this done with in the next 60 days ..

The flying site committee was suggested to be reinstated and Mr Ken Vancorbach volunteered to look into other fields of opportunity and welcomes any and all suggestions to pursue.

Sad news

Mr bill Peck Passed away this Last month after undergoing surgery. as of this time we do not have more information on the cause of death

Santa Barbara club sponsored a float fly at cachuma lake this was a three day event. 9th 10th and the 11th of June.

Bad month in may three planes no longer will see the fresh air and fly majestically over our flying site thanks to Cornel Jim and Larry, of course they all had exellent excuses and nothing to do with flying ability..larrys excuse was the most feeble so he won the crash of the month award ..

Over \$150.00 of raffle prizes were given and Mr Oberest won the 50/50 drawing meeting adjourned at 8:15 PM

Respectfully submitted Jim Bierbauer
