**Presidents corner**, as another year comes to a close we have seen changes in our hobby as electrics are becoming more and more popular. As battery packs are more power full and also more dangerous, lipo packs and quick field chargers have come into a common use, please be care full with all of these items remember they are not toys, we are now entering into the small gas engine field, that will produce a lot of torque and spin a large prop, make sure you have a kill switch on these engines as they will sometimes not respond to a throttle kill only . We have new officers to welcome, MR KEN VAN CORBACH will be taking over as our new president and MR CORNEL KRAINTZ as treasure. They will be starting their post as of the 1st of the year. Mr Kraintz is filling in while Les Holland is recovering from heart surgery and will proceed on as our new treasurer. Remember to have fun and fly safe, fly safe and have fun..  
Larry Schlagel..

**Meeting was called to order at 7:00 pm by the president Larry Schlagel**

27 members were present

Minutes were read from the last meeting by the secretary and accepted.

Treasury report was given by Cornel Kraintz and accepted.

Safety officer Mark Seiro reported that the rules that have been established for our flying site are being followed, also reminded that every one needs to be re certified as only a couple of members have not, this was a request by the officers to make sure a level 4 status is maintained to fly with out a buddy box .

Fun fly with Devin s help and the clubs support we had a great time all three divisions were filled so there was a contest in each group, we only had three crashes, and a lot of fun , that's what its all about , we need to see more of these in the future ..

As was stated in the president's corner we have new officers Ken Van Corbach as president and Cornel Kraintz as treasure witch will be taking over next year.

Mr Allington our youth promotion chair person has requested a donation for rubber powered planes for the next years event witch will include the boy scouts , we all hope we will see a growth in this area ,

**Christmas party is on the 6th of December make this a must do, starting at 7:00 pm the meeting will start, should close the meeting by 7:02 PM ,the bar will be open ,we will serve by 7:30 to 7:45 come on out and have a great time ..**

Show and tell... Ken brought in a new gas engine BCMA 26 cc for his super star looks great ,waiting for results, might be a new wave for the future..

Crash of the month went to Sam Mossin, during the fun fly Mr Mossin took of loaded with his deadly cargo of hand packed flour to bomb an innocent orange safety cone standing alone in the field, as Mr Mossin took to the clear blue sky and leveled off 100 yards down range banked west went another 200 yards before turning north continuing 180 yards before turning east coming over saulsbury hill banking again due south for a perfect bombing run.. silence fell over the crowd as the plane made a direct path over the intended target. as Sam pulled up into a perfect loop to make the drop, and to every ones excitement it was one of the best bomb releases, and as every one including Sam watched where the bomb went , Sam just forgot that he was flying a plane,, I think it was a toss up to what hit the ground first. So for now on were going to have to change the name from. no fun Sam to Sam the man Mossin..

Raffle prizes every one that had a winning ticket was present.

50/50 as usual the winner got half of the proceeds
